

PUBLIC NOTICE

INTERSTATE INDUSTRIALIZED BUILDINGS COMMISSION RULE PROPOSALS: Notice is hereby given that the Interstate Industrialized Buildings Commission (IIBC) is in the process of making amendments to its Uniform Administrative Procedures (UAP). IIBC is a multi-state compact responsible for oversight of the construction of modular buildings. Under the compact member states agree to accept modular buildings bearing the IIBC label as suitable for use in their state. IIBC's oversight guarantees that these units comply with member states' applicable building codes and are therefore equivalent in terms of both construction and inspection to a unit that was site built within the state.

The UAP outline the approvals of plans, the certification program for the modular units to be shipped, the responsibilities of manufacturers, the responsibilities of the evaluation and inspection agencies, the reciprocity agreement between member states, the oversight of the program by the Commission, and the appeal procedures under the rules.

The changes to the UAP can be viewed on IIBC's website. The address is www.interstateibc.org.

Contact Person. Comments or questions on IIBC's amendments to the UAP must be submitted to N. Kevin Egilmez, Interstate Industrialized Buildings Commission, 505 Huntmar Park Drive, Suite 210, Herndon, VA 20170, (703) 481-2022, or email to kegilmez@interstateibc.org.

Public Comment. Interested persons or groups have until 4:30 p.m. on Thursday, May 31, 2018, to submit written comment in support of or in opposition to any part of the IIBC's amendments. Comments must be in writing and received by the agency contact person by the due date. The comment should identify the portion of the amendments addressed, the reason for the comment, and any change proposed.
